

Cessna Citation Encore

With speeds of up to 500 mph and cruising altitudes higher than most airliners, the Citation Encore has been acclaimed as the finest all-around light jet ever built.

Climbing directly to 45,000 feet, the Encore leaves virtually all weather and turbulence behind. In cruise, passengers will be impressed by the quiet cabin and the overall feeling of spaciousness. The newly designed 'trailing-link' landing gear makes for smooth landings on runways as short as 3,500 feet and the external baggage capacity exceeds that of any other competitive aircraft.

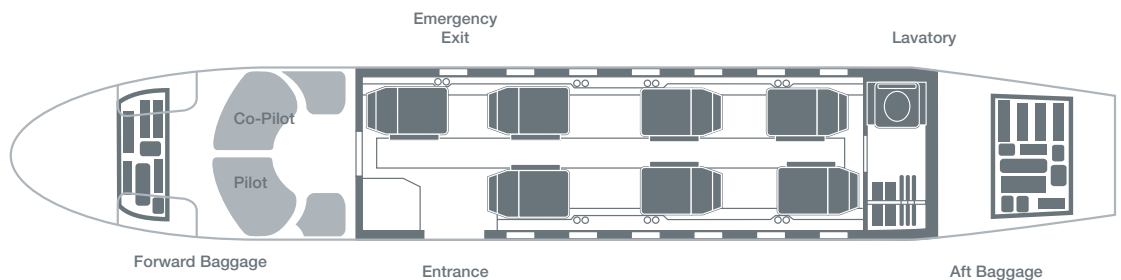

With so much to offer, we invite you to come fly the ultimate light jet!

Cabin Amenities
